2.4 Public Information

2.4.1 Statement on NAAB-Accredited Degrees
In accordance with the NAAB guidelines, the exact text found in appendix 5 of the 2009 NAAB conditions and procedures, is available on the following webpages:

http://design.asu.edu/degrees/undergrad/bsd.php
http://design.asu.edu/degrees/grad/march.php
http://design.asu.edu/degrees/grad/march3.php

It reads as follows:
In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Arizona State University, Herberger Institute for Design and the Arts, School of Design offers the following NAAB-accredited degree programs:

M. Arch. (pre-professional degree + 59 graduate credits)
M. Arch. 3+ (non-pre-professional degree + 90 credits)
Next accreditation visit for all programs: 2012
